**Initial Exterior Cleaning:** Clean the entire boat with a heavy duty cleaner. This includes hatches and compartments.

**Interior Cleaning:** Clean the showers, heads, galley, wipe down all walls, clean appliances, then vacuum carpet.

**Hull sides:** Includes the area from the waterline to the rubrail.

**Superstructure:** Includes all exterior smooth surfaces above the rubrail. (\*Optional: inside the flybridge, aft deck and cockpit.)

**Center Console:** Includes superstructure, cockpit and console detailing. Hardtop, head, bilge and engine detailing are optional with additional cost.

**Wax inside Flybridge/Aft Deck and/or Cockpit:** To wax inside the flybridge/aft deck and/or cockpit is optional at the above quoted cost and is only optional in combination with Superstructure waxing. Clean and condition the vinyl is optional with additional fee.

**1-Step Process:** Includes an initial preparation of the boat for detail, then using a buffing wheel and cleaner/wax combination to clean and protect the surface.

**2-Step Process:** Includes an initial preparation of the boat for detail, then buff the smooth surfaces with a compound to remove oxidation and restore depth and shine. The final step is to apply a protective sealer or wax.

For safety, non-skid is generally not included in Buffing and Waxing, however it can be completed for an additional fee.

**Hard Top:** To wax the top and bottom of the hard top is an additional charge of \$4.00/ft. (length of boat).

Teak wood refinishing, engine compartment cleaning, bilge cleaning and routine exterior cleaning is available, each at additional fees.

Please Note: Price sheet is used as a general guideline. Any boats that exceed the average sq. , are greater than 50' or are in need if a heavy compounding, should be estimated to ensure accuracy. Please ask for an estimate.
