#### Notes:

1. Boats with unsupported Radar Arches, Windshields, Antenna or Masts may be subject to charges for the bracing or removal of this equipment in order to protect it from excess pressure.
2. Narrow beam performance boats, multi-hulled boats or double mast sailboats should be quoted for accuracy.
3. Shrink Wrap Covers left on during hot weather or for extended periods of time may create gel coat blisters.
4. We will replace or repair damaged shrink wrap covers for up to 6 months after installation, except in the events of vandalism or extreme weather conditions including but not limited to winds above 55 MPH, falling ice and heavy snow.
